

TO: Dr. Lowell Dingus

FROM: Ralph Appelbaum

DATE: March 28, 1990

During a telephone conversation with Henry Galiano, the proposal from Maxilla & Mandible Inc. was amended as follows and recommended to the American Museum of Natural History for immediate processing.

AMENDMENTS:

Item 4: The models are to be completed in 30 days.

Item 5: Model tangent points are to have a vertical 2" metal 3/16" O.D. mounting rod which slips into a 2" Hx 7/32" I.D. tube affixed to a 3"x 3" square 16 GA baseplate six (6) of these are required.

See enclosed drawing.
