Dear Henry,

Attached is information provided by Melissa Posen. You can use this in developing the write-ups to be included with the skeleton models.

Please call me so that we can discuss wording to be carved into the models or else noted on the wood bases. It will be satisfactory to us if the copyright symbol identifies Maxilla and Mandible, but we want some mention of the museum next to it. Some of the possibilities are:

(c) Maxilla and Mandible in cooperation with the
American Museum of Natural History

(c) Maxilla and Mandible licensed by the American
Museum of Natural History

(c) Maxilla and Mandible based on the mount at the
American Museum of Natural History

I look forward to hearing from you about the above matters and to seeing the model of the Barosaurus.

Sincerely,

Martin Tekulsky
